

**Hamilton Global Opportunities (HGO), a public limited company
investing in Late Stage high growth tech companies,
announces the direct listing of its shares on Euronext Growth® Paris**

***Giving investors the opportunity to access private equity capital returns
through a listed investment vehicle***

- **Unique investment strategy focused on Late Stage (high growth) companies from innovative sectors (Tech, Fintech, Medtech with ESG/Impact focus) and specific regions (Silicon Valley, USA - Israel)**
- **Ability to capture value creation by having the flexibility to select the timing of the investment allowing HGO to accompany private tech companies through their growth phase**
- **Long term capital growth target through a diversified portfolio: private and listed companies as well as alternative strategies**
- **Strong deal flow perspective supported by an extensive network of industry executives developed over a long period by the seasoned management team**
- **Clear benefits of a listing over a classic private investment fund structure include: market liquidity, transparency of portfolio holdings, distribution of dividends in the medium term and control of investment timing**
- **The solid foundation of an initial investment capacity of €9.6 million, should be progressively reinforced through subsequent issues of shares**

London, UK, April 26, 2021, 9:00 am CEST – Hamilton Global Opportunities, the investment vehicle of Hamilton Ventures, today announces the direct listing of its shares on Euronext Growth® Paris.

Gustavo Perrotta, Founder and Chief Executive Officer of Hamilton Global Opportunities declares: *“The listing of Hamilton Global Opportunities will give investors access to a permanent capital vehicle able to capture value creation from investment opportunities in Tech, Fintech and Medtech with a particular focus on social impact, mainly in two regions well renowned for the quality of their ecosystem, Silicon Valley and Israel. More globally, we aim to provide transparent access to private investment opportunities while offering liquidity, transparency and governance enabled by the listing of the shares. Like a virtuous circle, the permanent capital model also helps us to maximise our long-term capital return through complete control of the timing of each investment and exit. We are excited to join the rich and diversified Euronext Growth® community and are confident that the listing will provide a solid foundation to support our future expansion. I am thrilled to leverage our extensive network consolidated during the 12 years following the creation of Hamilton Ventures, during which*

we have validated our investment rationale and operational processes focusing on Late Stage (high growth) tech opportunities.”

Hamilton Global Opportunitites, origination and execution of world-class opportunities

- **A listed vehicle** – full transparency on the governance, daily pricing, trading, visibility, credibility, news flow, research on the Company
- **A distinctive “inclusive” approach** – it is the Manager’s intention to create a network effect between shareholders, investee companies and last but not least between shareholders and investee companies
- **A balanced and disciplined strategy** – aiming to start distributing a long-term stable dividend flow in the medium term
- **The ability to execute** – well seasoned management team that brings years of experience in banking, public/private markets, structuring, risk management
- **Relatively short-term investment horizon** – between 24 and 48 months
- **The desire to scale** – having a “spendable” currency means that we can potentially explore the M&A market and consolidate the AUM to get into bigger and more lucrative deals
- **The depth of our relationships** – 12 years of knowledge of the private market, over 22 years of experience in the US markets have given us a clear edge over the course of the years in searching and selecting the real partners who can make the difference
- **Quality Origination** – as above this gives us a privileged access into unique situations
- **The ESG / Social Impact aspect** – relevant for some, extremely important for us, an imperative for the next generation, as a way to prove that every company can be profitable and also intelligent in the allocation of resources

Financial Advisor and Listing Sponsor

About Hamilton Global Opportunities

Hamilton Global Opportunities PLC (“HGO”) evolved from the Hamilton Ventures: Merchant Banking boutique (“Hamilton”) that was founded in 2009 by Sir Peter Middleton and Gustavo Perrotta in response to the valuation-driven growth capital opportunities that became apparent following the financial crisis. Hamilton’s focus has to date been on strategic advisory and “club deals” for direct investments into growth stage private companies. The management team at Hamilton has over the last 12 years gained an enormous amount of experience and developed a unique track record in structuring bespoke direct investments in a diverse portfolio of companies in different sectors and geographies. Through its extensive network of advisors, bankers, co-investors, industry leaders and sector specialists, Hamilton made investments across Social Media, Gaming, Nanotech, Medtech and Fintech in Europe and the United States. As the strategy developed there was a more focused approach with more concentration on Tech, Fintech and MedTech in two main geographies: Silicon Valley and Israel.
