

Hamilton Global Opportunities plc (ALHGO.PA) increases its investment in the Israeli company Gauzy, world leader in smart glass & ADAS technologies

- **Gauzy, a true pioneer of nanotechnology for light and vision control, is the only material science company in the world developing, manufacturing, and marketing two of the three active smart glass technologies: SPD and Liquid Crystal, and advanced ADAS (advanced driver assistance systems) including CMS (camera monitoring systems) for long body on road vehicles**
- **Significant development potential given the numerous high value-added applications in everyday life for Gauzy's diverse product range, such as the possibility of instantly modulating the transparency or translucency of glass used in windows across the automotive and architectural industries for shading, privacy, and thermal regulation, and making vehicle operation safer with blind spot reduction through its high performance ADAS products**
- **Successful completion of an additional investment of US\$1 million in Gauzy's extended Series D funding round by Hamilton Global Opportunities plc.**

London, September 7, 2022 at 6:00pm CEST - Hamilton Global Opportunities plc (ALHGO - GB00BMDXQ672) announces that it has successfully completed an additional investment of US\$1 million in Israeli company Gauzy, a world leader in smart glass & ADAS technologies, bringing the total investment to US\$ 3 million plus associated warrants.

Gustavo Perrotta, Founder and CEO of Hamilton Global Opportunities, said: *"We are extremely pleased to be able to complete an additional investment into Gauzy. Our interactions with Gauzy since our initial investment have confirmed that this company profile corresponds perfectly to our investment policy based on a dynamic management team, high-potential and responsible innovation."*

About Gauzy: gauzy.com

Gauzy Ltd. is a world leading material science company, focused on the research, development, manufacturing, and marketing of vision and light control technologies that support safe, sustainable, comfortable, and agile user experiences across various industries.
